

FOR HIGH SCHOOL STUDENTS AND TEACHERS

Democracy needs your voice

Democracy is fragile. Few people throughout history have had the privilege of living in one. As the United States grows more fragmented, dividing is easier than healing. How do we heal?

How can we help others understand why democracy matters?

**High school students: come together
and be part of the solution. Most brainstorming will be in small groups.**

**Friday evening, Feb. 19
Saturday daytime, Feb. 20**
